VERNON PRESS
SERIES IN ECONOMICS

Networks of International Trade and Investment

Sara Gorgoni (Ed.),
University of Greenwich
et al.

This book makes a case for the use of network analysis alongside existing techniques in order to investigate pressing issues in international business and economics. The authors put forward a range of studies that examine topics such as the evolution of world trade patterns. Providing an accessible explanation of network analysis, this edited volume is an important contribution to research in international trade and investment.

Political Corruption in a World in Transition

Jonathan Mendilow, *Rider University*
Éric Phélippeau, *Université Paris Nanterre* (Eds.)

This book argues that the mainstream definitions of corruption and their key expectations concerning the relationship between corruption, democracy and the process of democratization, require re-examination. The authors identify and offer more exhaustive alternatives to these problems.

Selflessness in Business

Dominika Ochnik (Ed.), University of Opole

This book deals with a controversial and seemingly paradoxical relationship between selflessness and business. It depicts the primary and lasting controversy between the selfish (egoistic, competitive) and selfless (pro-social, co-operative) behavior in view of social, organizational and individual benefits. It aims to reveal possible solutions to present and future challenges and enhance the meaning of positive outcomes of selfless behavior in business and work environments.

VERNON PRESS
SERIES IN ART

Art, Theory and Practice in the Anthropocene

Edited by Julie Reiss

Art, Theory and Practice in the Anthropocene

Julie Reiss (Ed.),
Christie's Education

This book contributes to the growing literature on artistic responses to global climate change and its consequences. Presenting essays by thirteen art historians, art critics, curators, artists and educators, it offers different frameworks for talking about visual representation and the current environmental crisis. The anthology models a range of methodological approaches and contributes to an understanding of how artists and those writing about art construct narratives around the environment.

CITY OF CHILDREN

City of Children

Francesco Tonucci,
*Institute of Cognitive
Sciences and
Technologies of the
National Research
Council*

This book proposes a new philosophy of city governance that takes children as the default citizens, with the confidence that a city sensitive to the needs of childhood will hold more benefits for all. Two principle axioms are suggested for optimal city design: the participation of children in city governance and the restitution of their autonomy. It is a translation of "La città dei bambini" and was translated as part of the Bridging Language and Scholarship initiative, extending the reach of this important work to a broader international audience.

Essays in Post-Critical Philosophy of Technology

Mihály Héder, Eszter Nádasi, *BME* (Eds.)

Philosophy of technology seeks to understand the impact on and meaning of technology for society. This volume applies this branch of philosophical inquiry to both historical and contemporary examples. Challenging past approaches, the selected essays ask, what has been the historical role of technology in social and scientific change? And, how can a 'post-critical' approach enhance and extend our understanding of philosophy of technology?

Critique of Authenticity

Thomas Claviez, Britta Sweers, *University of Bern*
Kornelia Imesch, *University of Lausanne* (Eds.)

The volume provides a critical assessment of the concept of authenticity and gauges its role, significance and shortcomings in a variety of disciplinary contexts. It demonstrates that the alleged desire for authenticity is alive, but comes at a high price, connected to a culture of experts, authority and exclusionary strategies.

Personal Identity in Moral and Legal Reasoning

Richard Prust, *St. Andrews University*
Jeffery Geller, *UNC Pembroke*

This book reveals what underwrites our most fundamental beliefs about a person's rights and responsibilities. It provides a powerful tool for interpreting the protocols of a person-respecting society by making explicit the axioms of character logic and exploring their origins and justification.

Revisiting Richard Rorty

Pedro Góis Moreira,
Catholic University of Portugal (Ed.)

Richard Rorty is considered one of the most original philosophers of the last decades and has generated warm enthusiasm on the part of many. This book contains valuable essays in English, Portuguese, and Spanish and is an example of the reach of Rorty's thought and its expansion beyond the Anglo-Saxon world in only ten years after his death.

Understanding Political Persuasion

Linguistic and Rhetorical Analysis

Douglas Mark Ponton,
University of Catania

This book builds on the consolidated research field of Political Discourse Analysis. It provides an introduction suitable for adoption by those wishing to understand various principles underlying such research, and appreciate how the tools of discourse analysis might be applied to actual texts. It summarizes previous work in the field by authorities such as Halliday, Wodak, and others, providing the would-be analyst with practical ideas for their own research.

Your proposal should contain the following information: a summary of the proposed book, an author/editor's biographical statement, the market rationale for your book, and a sample chapter. Please send all proposals to: submissions@vernonpress.com

Quality commitment

Thanks to our growing community of reviewers all our books are peer reviewed. Committed to producing high-quality titles, we employ tried-and-tested quality control processes in all stages of production. Our editorial checks ensure that all books adhere to high standards of consistency, readability and coherence. We adopt a pragmatic approach to turning around a manuscript quickly and intervene only when necessary.

Editorial values and standards

A work's contribution to knowledge, irrespective of approach or perspective, is the central criterion of our acquisition process. Importantly, our acquisitions are driven by their research impact and current academic trends rather than saleability. Peer review, in-house editorial expertise and collaboration with advisory editors ensure our titles are relevant and of a high academic standard. Our commitment to scholarship has been recognized with inclusion in the lists of academic publishers maintained by the Spanish National Research Council, the Finnish Publication Forum and the Norwegian Centre for Research Data.

Individual attention

We care for and pay attention to the needs of each of our authors. We are responsive to author queries and strive to keep you up to date with manuscript's progress towards publication. We only enlist qualified and sufficiently motivated experts to review your work and guide them to offer constructive criticism. This ensures that peer reviews are thorough, constructive and respectful of your effort as an author.

Maximum exposure

We work closely with our industry and academic community partners to understand current trends and market our titles appropriately. Besides traditional book marketing, we make extensive use of digital marketing tools and are able to work with authors on promotional activities. All our books are also published as e-books and paperbacks. As reported in WorldCat, our books are held by academic libraries worldwide. Our books are also available through a wide range of specialized resellers, e-book aggregators, select academic bookshops and online retailers such as Amazon and Barnes and Noble.

No cost burden & flexibility about sharing

It's simple: we never charge authors for publishing - no hidden fees, no surprises. Our no-charge promise reflects our confidence in commissioning only high-quality works, the quality of our production and the efficiency of our workflow. Authors of monographs are offered complimentary copies of their book and all authors can purchase additional copies at a 40% discount.
